# Tornando seu repositório privado

The screenshot shows the GitHub repository settings page for a repository named 'tp-555-1sem2025'. The browser address bar shows the URL 'github.com/luiz10ml/tp-555-1sem2025/settings'. The page features a 'Danger Zone' section with several actions:

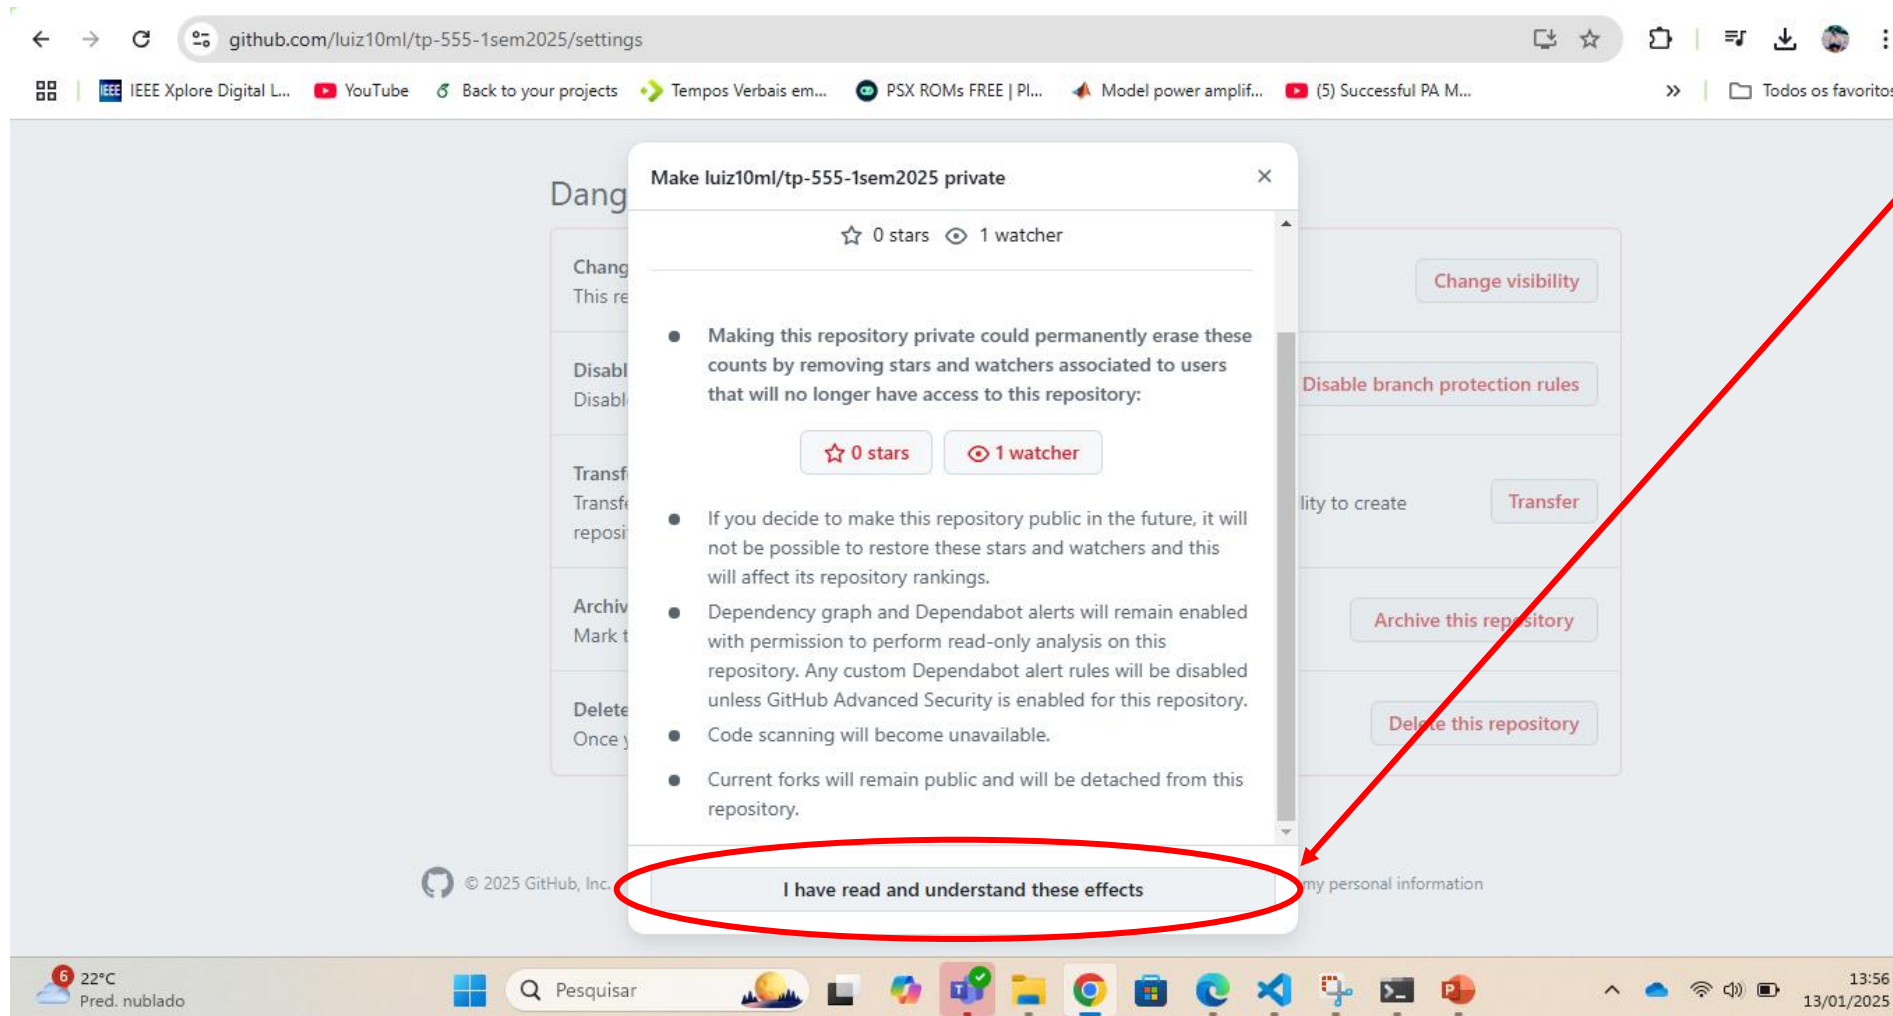

- Change repository visibility:** This repository is currently public. A red circle and arrow highlight the 'Change visibility' button, which has a dropdown menu showing 'Change to private' and 'Disable branch protection rules'.
- Disable branch protection rules:** Disable branch protection rules enforcement and APIs. A button labeled 'Disable branch protection rules' is visible.
- Transfer ownership:** Transfer this repository to another user or to an organization where you have the ability to create repositories. A button labeled 'Transfer' is visible.
- Archive this repository:** Mark this repository as archived and read-only. A button labeled 'Archive this repository' is visible.
- Delete this repository:** Once you delete a repository, there is no going back. Please be certain. A button labeled 'Delete this repository' is visible.

The footer of the page includes the GitHub logo, copyright information '© 2025 GitHub, Inc.', and links for Terms, Privacy, Security, Status, Docs, Contact, Manage cookies, and Do not share my personal information. The Windows taskbar at the bottom shows the date and time as 13:51 on 13/01/2025, along with weather information (22°C, Pred. nublado) and various application icons.

Rename

☐ Template repository

Template repositories let users generate new repositories with the same directory structure and files. [Learn more about template repositories.](#)

☐ Require contributors to sign off on web-based commits

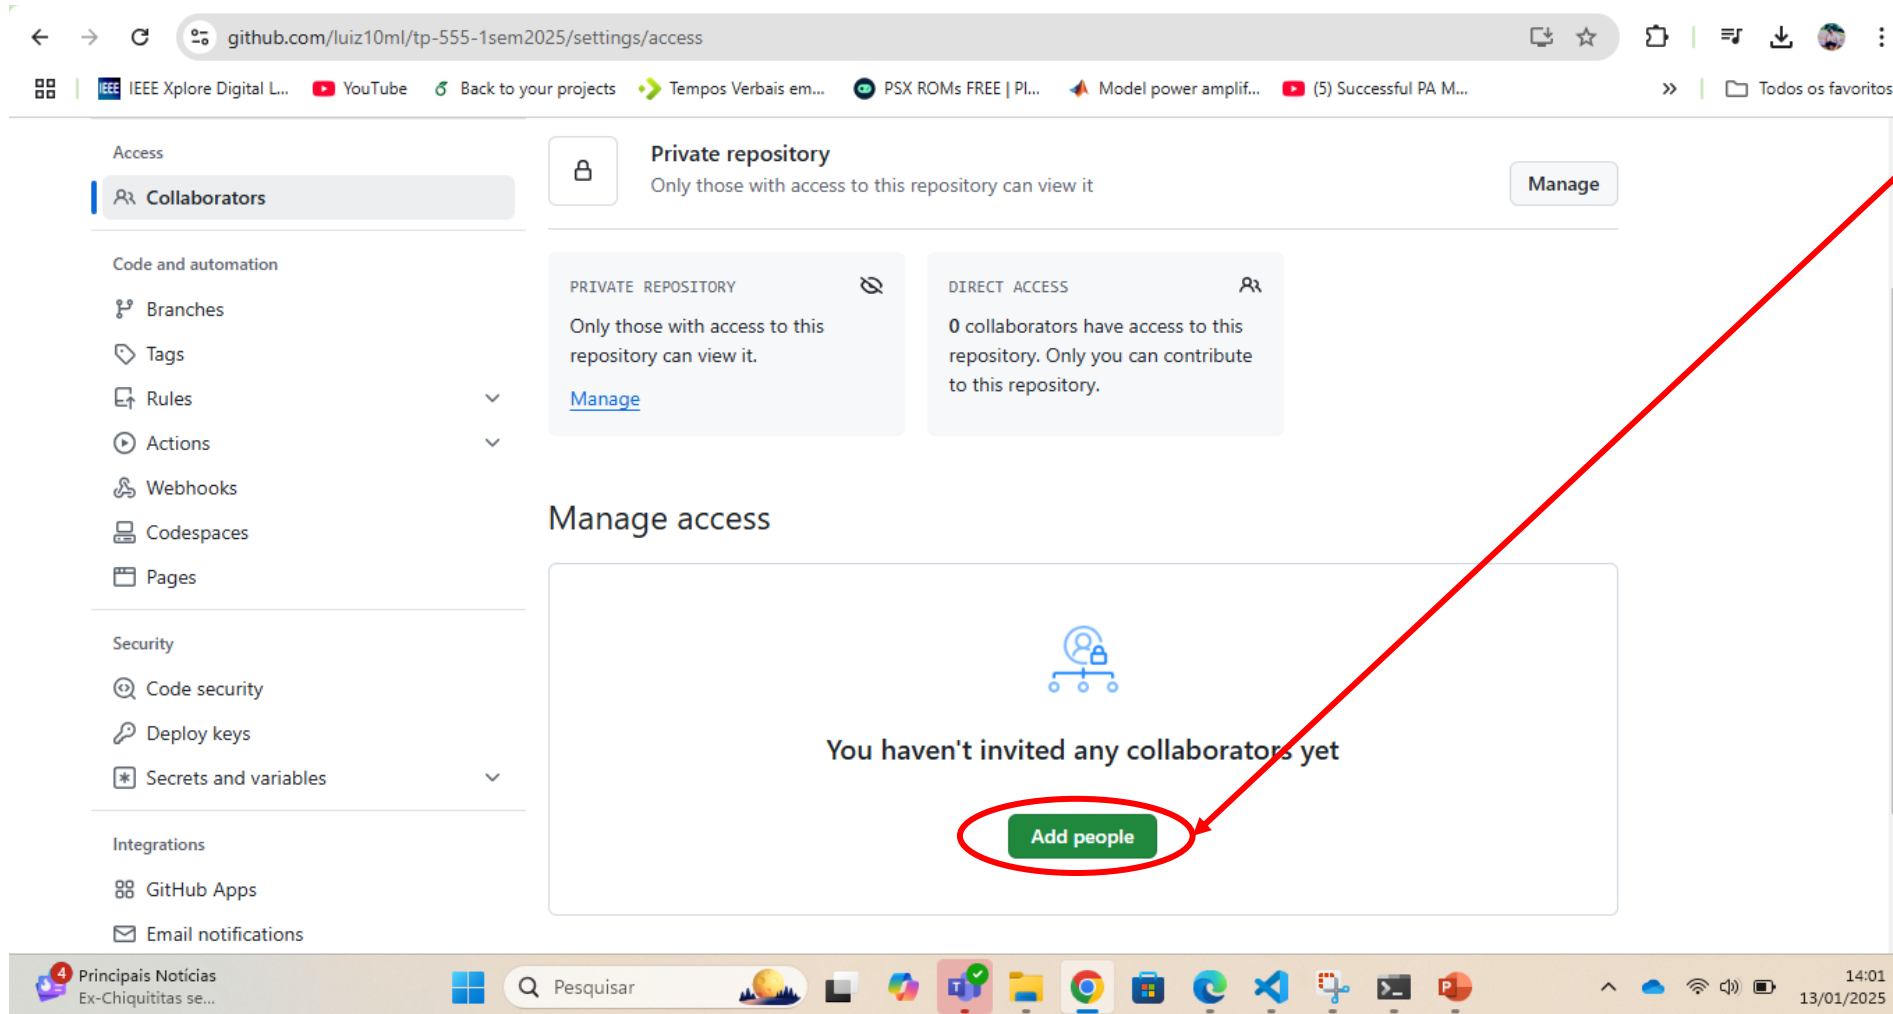

Enabling this setting will require contributors to sign off on commits made through GitHub's web interface. Signing off is a way for contributors to affirm that their commit complies with the repository's terms, commonly the [Developer Certificate of Origin \(DCO\)](#). [Learn more about signing off on commits.](#)

Default branch

The default branch is considered the "base" branch in your repository, against which all pull requests and code commits are automatically made, unless you specify a different branch.

# Compartilhando seu repositório privado com o professor

The screenshot shows the GitHub interface for a private repository. The left sidebar contains navigation links for Access, Code and automation, Security, and Integrations. The main content area is titled 'Private repository' and shows two tabs: 'PRIVATE REPOSITORY' and 'DIRECT ACCESS'. The 'PRIVATE REPOSITORY' tab is active, displaying the text 'Only those with access to this repository can view it.' and a 'Manage' button. Below this, the 'Manage access' section shows a message 'You haven't invited any collaborators yet' and a green 'Add people' button, which is circled in red. A red arrow points from the top right towards the 'Add people' button. The bottom of the screen shows the Windows taskbar with various application icons and the system clock.
